

Mental Health in Primary Care

Brief course overview

This interactive one day update for primary care clinicians will focus on improving organisational awareness of, and responsiveness to, mental health challenges. Suitable for clinical staff, this update aims to improve patient pathways through seminars, group work and case studies.

Topics

- Updated mental health guidelines in primary care
- The primary:secondary care interface, including referral criteria & guidelines
- Early intervention in psychosis and Towards Zero Suicide
- Meet local & regional services to learn about their work, their remits, how they operate and access routes
- Case-based plenary: clinical case discussions reflecting on suitable management, treatment and referral options

Who should attend?

All clinical staff working in primary care

Certification

A certificate of attendance will be provided to attendees

Who will teach it?

Led by Dr Chris Sargeant, GP and Senior Lecturer at Brighton and Sussex Medical School. Sessions will be led by clinicians, local and regional service providers, and service users.

Where and when will it run?

25th January 2019, 9.30am - 4.30pm
University of Brighton, Falmer Campus
BN1 9PH

How much will it cost?

£175 includes lunch, refreshments and parking (subject to limited availability)

Where to register?
