

# Research study: Experiences of living with motor neurone disease and of receiving services in Sussex

Are you interested in participating in motor neurone disease (MND) research?  
Are you living with MND?  
Have you received input from health and/or social care in Sussex?  
Would you be interested in being interviewed about your experiences?

## The study aims to gain a deeper understanding of:

1. What it is like to live with MND
2. The impact this has on well-being
3. Your experiences of MND services in Sussex

## Contact us

If you are interested in becoming involved, please contact:  
**Rachel Thomson**, Coordinator, Sussex Motor Neurone Disease Care and Research Network, Brighton and Sussex Medical School, Room 205, Trafford Centre, University of Sussex, Falmer, BN1 9RY

OR

**Catherine Aicken**, Research Fellow, School of Health Sciences, Westlaine House, University of Brighton, Village Way, Falmer, BN1 9PH  
E: C.Aicken@brighton.ac.uk T: 01273 641796

- An individual interview with a member of the research team (someone who is not part of your care team or known to you).
- At a location convenient to you (this might be at home or at a university location).
- Interviews may take up to 90 minutes. The interview can be carried out over more than one session if required
- For people with communication difficulties, additional time and support will be available. The researchers are all experienced in working with people with communication needs
- The interview will be digitally recorded and stored in a confidential manner.

The project is being carried out by a team of researchers from the Sussex MND Care and Research network, University of Brighton and local NHS clinicians who are involved in the care of people with MND.
